

BHARTI KUMARI

Full Stack Developer

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years building scalable, high-performance SaaS and real-time applications. Skilled in Angular, React, Node.js, RESTful APIs, and microservices architecture. Focused on system design, performance optimization, and delivering production-ready, user-centric solutions.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript
- **Frontend:** Angular, React, Redux, HTML5, CSS3, Tailwind, Bootstrap
- **Backend:** Node Js, Express Js
- **Database:** MongoDB
- **Tools:** Git, GitHub, GitLab, Postman, VS Code
- **Testing:** Jest
- **Practices:** Agile, Scrum, CI/CD, SDLC, Component Architecture

EXPERIENCE

FULL STACK DEVELOPER 03/2023 to 03/2026
Biocipher Technologies Private Limited, Gurugram, India

- Designed and developed scalable Angular and React applications using reusable components, reducing development time by ~25%.
- Built high-performance REST APIs with Node.js and Express, handling large-scale data and improving response time by ~30%.
- Implemented real-time features including live dashboards, agent tracking, and communication modules using Web Real-Time Communication , improving system responsiveness.
- Optimized application performance through efficient state management and API handling, enhancing load speed and user experience.
- Set up CI/CD pipelines, reducing deployment time by ~40% and ensuring smooth releases.
- Collaborated with cross-functional teams (product, QA, backend) to deliver end-to-end features on schedule.

ASSOCIATE SOFTWARE ENGINEER 01/2022 to 08/2022
Synoriq, Jaipur, India

- Built responsive UI modules using Angular and React, improving user engagement and reducing load time by ~20%.
- Contributed to backend API development using Node.js, supporting feature delivery and handling scalable data flow
- Improved application performance through debugging and optimization, reducing bugs and enhancing stability.

- Strengthened full-stack development skills while working on production workflows and real-world deployments.

EDUCATION

JC Bose University of Science & Technology ,YMCA, Faridabad, India
B.Tech, Information Technology, 08/2022

PROJECTS

CRM + Web Real-Time Communication Platform [LINK](#)

- Built scalable CRM handling leads, calls, and agent dashboards with real-time updates.
- Integrated Web Real-Time Communication calling with real-time event handling for seamless in-app communication experience.
- Optimized Angular architecture and APIs, improving performance, responsiveness, and overall system scalability significantly.

Pixabits-Communications Platform as a Service [LINK](#)

- Built scalable Communications Platform as a Service platform supporting SMS, Email, WhatsApp, Voice, and RCS communication channels.
- Developed campaign system with scheduling, analytics, real-time tracking, and live charts for campaign status visualization.
- Designed modular architecture and optimized performance, ensuring scalability, faster processing, and efficient resource utilization.
